

Come on out

with your mouth shoutin' —

## De-Criminalize Disability Now!

They'll act all shocked, like *Nobody says disability is a crime!* Then how come we get a placement the same way street criminals get a sentence? For the crime of disability, two million of us are serving out a life sentence in nursing homes or loony bins or state 'schools' — lockups with fancy names.

Probably six million more have been sentenced to group homes & sheltered workshops — hard time, for life. Today there's even a death sentence for disability. Yeah, they're callin' it our *right to die*, but they never did call shit by its right name. Look how much crime gets done in the name of *help*.

Expect the Respect.
